

Browser & Device Compatibility

Updated January 15th, 2012

Windows PC's

- Supported Browsers:
 - Internet Explorer
 - Versions 7, 8, or 9
 - Windows 7 machines should select the 32-bit version of IE as Adobe does not have 64-bit plug-in support for reader.
 - FireFox
 - Versions 5.0 – 9.0.1
 - Chrome
 - Current version 16.0.912.75
 - Browser recognition will automatically launch HTML5 version of Instanet Forms (same functionality and limitations as with iPad)

Macintosh

- Safari
 - Versions 4.0 – 5.1.2
 - Browser recognition will automatically launch HTML5 version of Instanet Forms
 - Same functionality and limitations as with iPad

Tablets

- iPad
 - Browser recognition will automatically launch iPad's into the HTML5 version of Instanet Forms
 - Forms features:
 - Create, edit and save forms.
 - Scrolling within a page or page-to-page
 - Limitations:
 - Any feature running inside a custom java script is currently disabled
 - Includes calculations, toggling on/off fields, checkboxes, formatting and keystroke tests (strikeouts)
- Android
 - Native browsers will launch HTML 5 versions of the forms.
 - Same functionality and limitations as with iPad

Smart Phones

- DocBox2Go (www.docbox2go.com)
 - Compatible with iPhone, Droid devices, TReO, Blackberry and most other standard smartpones.
 - Features available include:
 - Access to all transaction folders
 - View, email and fax any document(s)/forms stored.
